DOT - SMART REMOTE

With the increase in the use of electronic appliances, the number of remotes is also increasing every day. DOT - Smart Remote is what you need in such situations. It is a device that enables you to automate any remote of any appliance with an IR Remote that is available. You will be able to create a universal remote with this device, hence you don't have to go through the hassle of finding the right remote to operate the appliance.

FEATURES

Retrofit Design: It can be plugged in any USB outlet, even the phone charger.

Robust Design: Advanced firmware and rugged hardware design for long-lasting performance.

Built-in S-Wi-Fi: Equipped with secure WiFi that controls appliances from anywhere.

Voice Command: The automation app is compatible with all types of voice assistants such as Alexa, Bixby, Google Assistant, Siri and more.

Universal Remote: You can add new remotes of various appliances to operate with your smart phone.
